The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to extend the effectiveness of CBSX’s current rule applicable to the Clearly Erroneous Policy. Portions of CBSX Rule 52.4, explained in further detail below, are currently operating as a pilot program set to expire on April 8, 2014.<sup>3</sup> The Exchange proposes to extend the pilot program to coincide with the pilot period for the Plan to Address Extraordinary Market Volatility Pursuant to Rule 608 of Regulation NMS under the Act (the “Limit Up-Limit Down Plan” or the “Plan”), including any extensions to the pilot period for the Plan.<sup>4</sup>

On September 10, 2010, the Commission approved, on a pilot basis, changes to CBSX Rule 52.4 to provide for uniform treatment: (1) of clearly erroneous execution reviews in multi-stock events involving twenty or more securities; and (2) in the event transactions occur that result in the issuance of an individual stock trading pause by the primary listing market and subsequent transactions that occur before the trading pause is in effect on the CBSX.<sup>5</sup> The Exchange also adopted additional changes to Rule 52.4 that reduced the ability of the Exchange

<sup>4</sup> See Securities Exchange Act Release No. 67091 (May 31, 2012), 77 FR 33498 (June 6, 2012) (the “Limit Up-Limit Down Release”).

<sup>5</sup> Securities Exchange Act Release No. 62886 (Sept. 10, 2010), 75 FR 56613 (Sept. 16, 2010) (SR-CBOE-2010-056).

to deviate from the objective standards set forth in Rule 52.4,<sup>6</sup> and in 2013, adopted a provision designed to address the operation of the Plan.<sup>7</sup>

The Exchange believes the benefits to market participants from the more objective clearly erroneous executions rule should continue on a pilot basis to coincide with the operation of the Limit Up-Limit Down Plan. The Exchange believes that continuing the pilot will protect against any unanticipated consequences. Thus, the Exchange believes that the protections of the Clearly Erroneous Rule should continue while the industry gains further experience operating the Plan.

## 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Act and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.<sup>8</sup> Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)<sup>9</sup> requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)<sup>10</sup> requirement

that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Although the Limit Up-Limit Down Plan is operational, the Exchange believes that maintaining the pilot will help to protect against unanticipated consequences. Thus, the Exchange believes that the protections of the Clearly Erroneous Rule should continue while the industry gains further experience operating the Plan. The Exchange also believes that the pilot program promotes just and equitable principles of trade in that it promotes transparency and uniformity across markets concerning review of transactions as clearly erroneous. Thus, the Exchange believes that the extension of the pilot would help assure that the determination of whether a clearly erroneous trade has occurred will be based on clear and objective criteria, and that the resolution of the incident will occur promptly through a transparent process. The proposed rule change would also help assure consistent results in handling erroneous trades across the U.S. markets, thus furthering fair and orderly markets, the protection of investors and the public interest. Based on the foregoing, the Exchange believes the benefits to market participants from the more objective clearly erroneous executions rule should continue on a pilot basis to coincide with the operation of the Limit Up-Limit Down Plan.

B. Self-Regulatory Organization's Statement on Burden on Competition

CBOE does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes that the Financial Industry Regulatory Authority ("FINRA") and other national securities exchanges are also filing similar proposals, and thus, that the proposal will help to ensure consistency across market centers.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>11</sup> and Rule 19b-4(f)(6)(iii) thereunder.<sup>12</sup>

The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will allow the clearly erroneous pilot program to continue uninterrupted while the industry gains further experience operating under the Limit Up-Limit Down Plan, and avoid any investor confusion that could result from a temporary interruption in the pilot program. For this reason, the Commission designates the proposed rule change to be operative upon filing.<sup>13</sup>

<sup>11</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>12</sup> 17 CFR 240.19b-4(f)(6)(iii). As required under Rule 19b-4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and the text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

<sup>13</sup> For purposes only of waiving the 30-day operative delay, the Commission has also considered the proposed rule's impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
